

BOOST ICOR - Porcelain

General: Boost Icor was created by Marco Casamonti of Archea Associates and has been inspired by Limestone. Created in six natural shades and four different finishes, this series lends itself to creating harmonious and functional floor and wall coverings - both inside and out. Also comes with architectural decorative proposals.

Applications: All commercial and residential applications for both floor and wall. Create various edge detailing & laminations for steps, pool surrounds / copings, as well as custom internal & external designs.
