

Forest Oak Log

General: The Forest Oak Log collection of hard wearing porcelain stoneware reproduces the natural beauty of Oak wood with knots, cracks and even insect bore holes holes that are filled as if it was real timber being treated in situ after installation. This series surface has V3 moderate variation and is so authentic - it is very difficult to tell the difference between the original Oak timber and this porcelain reproduction. Produced in the same colour palette as the Natural Oak Log collection, it can be married with all their finishes and decors.

Suitable for all floor and wall applications, including internal and external uses for residential, commercial and hospitality applications.
