

Cansei Log

General: Cansei Log is the detailed and perfect reproduction of the Cansiglio beech tree. This tree is very particular and only grows at an elevation of 1200m on karst terrain in the Cansiglio Forest. This forest is among the oldest forests in Europe, and is now a sustainably managed and protected nature site, making the characteristics of Cansei Log unique in the world.

The soul of the Cansiglio Forest comes to life - with natural shades and distinctive heart, all in pressed porcelain that will last and live on forever. Produced in five beautiful colourways for both indoor & outdoor use, plus a stunning decor.
