

Natural Oak Log

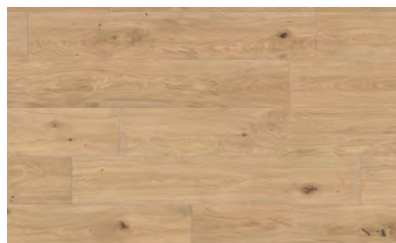

General: The Natural Oak Log collection of hard wearing porcelain stoneware reproduces the natural beauty of Oak wood with knots, cracks and holes that are filled as if it was real timber being treated in situ after installation. This series surface has V2 slight variation with grouted cracks, and filled knots - as if it has been restored. hence, its appearance is so authentic - it is very difficult to tell the difference between the original Oak timber and this porcelain reproduction.

Suitable for all floor and wall applications, including internal and external uses for residential, commercial and hospitality applications - where durability, cleanability and slip ratings are most important factors.
