

# Marble Movement

**General:** Marble Movement is a unique proposal which has a distinctive circular pattern formed by elevated chips of different marbles, each with its own three-dimensionality and specific features. This series evokes the rotational movement of water - often featured in mosaic floors of Christian basilicas to depict natural elements.

This hard wearing porcelain proposal is suitable for both indoor and outdoor applications, available in 9mm and a matching 20mm paver for external areas.

**Applications:** Commercial & residential in and out doors, including foyers, shopping centres, public areas, courtyards, living areas, patios, inside & out, step treads and pool surrounds, (with lamination and various edge detail finishes being achieved)

Origin:	Italy
Colours:	Grey
Thickness:	9 mm & 20 mm
Size & Finish:	Natural 9mm 1200 x 1200mm External 20mm 600 x 600mm
Type:	Full bodied porcelain
Appearance:	Pre cast concrete material with circular marble chips
Production:	Full colour body rectified
Technical:	Water Absorption less than 0.05% Frost Resistant High Traffic Resistant Stain Resistant (use hot running water) Chemical Resistant
Slip Resistance:	Natural 9mm - R10 DIN 51130 / BPN P3 External 20mm - R10 DIN 51130 / BPN P4
