

# BOOST MINERAL

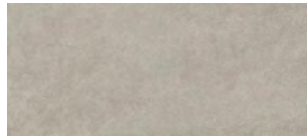

**General:** Drawn over the centuries from ore, volcanic ash and slate, the Belgian Ardennes stone is the source of inspiration for the Boost Mineral collection. Natural textured effects and elegance make the surface perfect for indoor and outdoor settings that blend seamlessly. Balanced between richness of detail and naturalness of surface, Boost Mineral creates a modern stone effect with discreet contemporary design appeal. The large sizes are ideal for covering furniture, kitchen benches and worktops.

**Applications:** All commercial and residential applications for floor, wall, facades, bench tops and furnishings. Create various edge detailing & laminations for steps, pool surrounds / copings.
