

GRAFFITI

General: Spaces designed and reinterpreted through colour, and a mix of craftsmanship & technology. Graffiti expands on the traditional brick appearance in a size of 48x450mm in ten matt effect finishes. Rich material colours for modern designed spaces - be it horizontal, vertical or herringbone patterns. This range of cool tints such as White, Light Grey and Ivory create quiet and elegant designs, while tones such as Blue and Sky recreate serenity and freshness. No less special are the Aquamarine and Green colours inspired by the shades of nature, and the classic Charcoal, Beige and Red colours for more urban spaces.

Applications: Commercial & residential internal & external walls, including facades wall features, splash backs and alike.
