

ALTEA

General: Inspired by Portuguese design and Brazilian old world colour - the Altea collection presents bespoke designs of important influences that have become timeless reminders of the eighteenth and nineteenth centuries, with similar designs still found in historic cities throughout southern Europe and the Caribbean. The 592x592x10mm tiles are pre-scored to a 195x195mm size to recreate the original smaller tile format, and making laying easy and at the same time creating a seamless floor with no tile picture framing once fully grouted. With the 497x995x20mm outdoor option, you can continue this decorative ambience outside with the hard wearing and slip rated properties of porcelain stoneware.

Applications: Suitable for all interiors & exteriors, retail fit outs, private homes, public spaces, commercial spaces and hospitality projects.

Origin:	Spain		
Availability:	Pinar	592 x 592mm	497 x 995mm
	Olivo	592 x 592mm	497 x 995mm
